PROFESSIONAL SUMMARY

Project Management graduate with practical internship experience at National CERT (PKCERT) and Oil & Gas Development Company Limited (OGDCL). Experienced in developing project planning documentation, including a Project Charter, Project Management Plan, Work Breakdown Structure, project schedules, risk registers, stakeholder analysis, and communication plans. Gained industrial exposure to project procurement, contract documentation, SAP/ERP workflows, EPCC/PCC delivery models, and cross-functional coordination. Academic background includes project lifecycle evaluation and application of all ten PMBOK knowledge areas. Interested in project planning, coordination, monitoring, procurement, and structured project delivery.

PROFESSIONAL EXPERIENCE

Project Management Intern **July 2026 – August 2026**
National CERT (PKCERT) – Project Management Unit

- Contributed to the Project Charter and comprehensive Project Management Plan for an Incident Response Plan Development project.
- Developed project planning documentation covering scope definition, deliverables, Work Breakdown Structure (WBS), schedules, work packages, and task dependencies.
- Prepared project management documentation addressing risk management, stakeholder responsibilities, RACI, communication planning, and project governance.
- Documented project monitoring and control, quality reviews, change management, and project closeout arrangements.

Projects Department Intern **August 2026 – September 2026**
Oil & Gas Development Company Limited (OGDCL) – Islamabad

- Gained exposure to multidisciplinary project workflows, procurement coordination, contracting, and technical project documentation.
- Studied EPCC/PCC delivery models, Terms of Reference (TOR), Scope of Work (SOW), and PPRA/PEC procurement rules and competitive bidding procedures.
- Prepared a Purchase Requisition (PR) in SAP/ERP under supervision and studied procurement documentation for the Sinjhoro Development Phase-II project.
- Studied the Jhal Magsi South Compression Project, including project scope, technical alternatives, procurement strategies, forecasting, CAPEX/OPEX, and economic evaluation.

ACADEMIC PROJECT

Evaluating Project Management Practices in Pakistan's Digital Economy Enhancement Project (DEEP)
Final Year Project – International Islamic University Islamabad

- Co-authored a qualitative case study evaluating project performance through the five project lifecycle phases and ten PMBOK knowledge areas.
- Prepared a Work Breakdown Structure, project schedule, stakeholder analysis, risk register, and communication plan.
- Analysed project governance, implementation progress, stakeholder engagement, procurement, risks, and project performance using publicly available sources.

EDUCATION

Bachelor of Science in Project Management **June 2026**
International Islamic University Islamabad (IIUI)
CGPA: 3.34/4.00
